

New Premium C.V. Axles

FOR ATVS, UTVS, AND SIDE-BY-SIDES

NAPA® New Premium C.V. Axles for ATVs, UTVs, and Side-by-Sides are engineered from the ground up to be the highest quality, most reliable, and toughest CV axles on the market.

● OE REPLACEMENT CV AXLES

- Handles up to 20% more torque than OEM axles (measured at axle breakage during testing)
- Heat treated chrome steel solid center shaft improves performance and longevity
- High quality neoprene CR rubber dust boots have greater flexibility as well as heat and chemical resistance than original equipment boots
- High performance moly grease in all axle joints provides better metal adhesion and resistance to high shock loads
- Meets all OEM axle specifications for travel and joint articulation

● HEAVY DUTY CV AXLES

- Handles up to 35% more torque than OEM axles (measured at axle breakage during testing)
- Heat treated chromoly steel solid center shaft has greater density and strength than chrome steel
- Premium quality thermoplastic elastomer (TPE) dust boots are stronger, more rigid, and offer increased resistance to puncture than neoprene CR rubber
- High performance, high temperature moly grease in all axle joints provides superior protection against extreme use
- Meets OEM travel specifications and exceeds OEM joint articulation specifications by up to 5°

New Premium ATV-UTV C.V. Axle Popular Applications

Arctic Cat		Applications	Front / Rear	Left / Right	Kawasaki		Applications	Front / Rear	Left / Right
