

Extended Travel C.V. Axles

DESIGNED SPECIFICALLY FOR LIFTED VEHICLES

The Original Extended Travel C.V. Axle – Built for Lifted Vehicles

Eliminate comebacks by using axles built for lifted applications – standard axles simply don't last.

BUY FROM THE ORIGINATOR. NOT THE IMITATOR.

Why settle for a copy when you can buy from the source that designed, tested, and perfected the NAPA® Extended Travel C.V. Axle? As the aftermarket originator, we deliver OE-level fit, performance, and durability – purpose-built for lifted vehicle applications.

INNOVATION DRIVEN BY EXPERIENCE

We don't just follow trends – we set them. With complete control over our R&D process, we're able to release new applications faster and respond to market demands without third-party delays. Our commitment to innovation and specialization in C.V. axle technology has made us the trusted choice for professional installers across North America.

UNLOCK NEW SALES OPPORTUNITIES:

- First-to-market coverage for lifted vehicle applications
- Industry-leading application depth & availability
- Confidence-backed by a limited lifetime warranty

ADDITIONAL BENEFITS:

- Up to 40mm more linear travel
- Enhanced articulation angles up to 47°
- High strength 8-ball joints deliver 60% greater operating angles
- Premium TPE boots resist punctures and tearing

UPGRADE CONFIDENTLY. NAPA® EXTENDED TRAVEL C.V. AXLES ARE READY TO HANDLE WHATEVER THE ROAD – OR TRAIL – THROWS YOUR WAY.
